Information specialisations
Bachelor HBO-ICT / Semester 4

Why specialisations?

Because ICT changes rapidly!

ICT is a dynamic field with many leading innovations.

Each year computing power **doubles** and with this increased capacity, opportunities for innovation increase as well.

**Looking ahead 4 years feels like
looking back 20 years**

(result of Moore's law)

So: we offer you a firm base of knowledge

by choosing one of our Main Study Programmes in semester 2

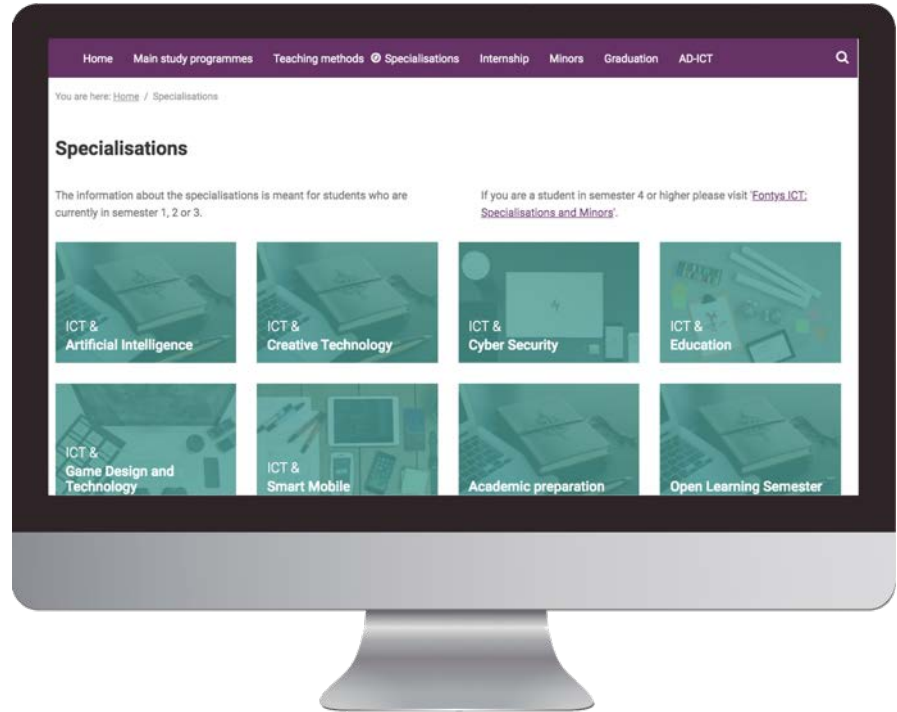

Now it's time choose one of our specialisations!

In semester 4 you'll get acquainted with the specialisation of your choice

What are these specialisations about?

You can find all information, like content, field, video's, of each specialisation in our Studynavigator!

www.studynavigatorfontysict.nl

Practical information [1]

In the 4th semester you will be taught 5 days a week in the specialisation of your choice.

The language of the lessons is English

Course based and Demand based students will join this semester together.

Practical information [2]

Consequences number of registrations:

In case less than 18 students registered in a specialisation, it is possible that this specialisation will be executed on *another location* or *not at all*. In that case you can specialise in your selected field in an Open Learning Semester or choose for one of the other specialisations.

Practical information [3]

Registration:

- Make a choice and register via **ProgressWWW**.
- You'll receive an email with an instruction how to register.
- Final deadline for registration: **2 may 2021** (end school week 11)
- If you register before the deadline, you are guaranteed a place in the specialisation of your choice. After the deadline you will be put on a waiting list and you will hear whether you have been placed in week 20.
- If you change your choice after the deadline of 2 May 2021 you will hear whether you have been placed in week 20.

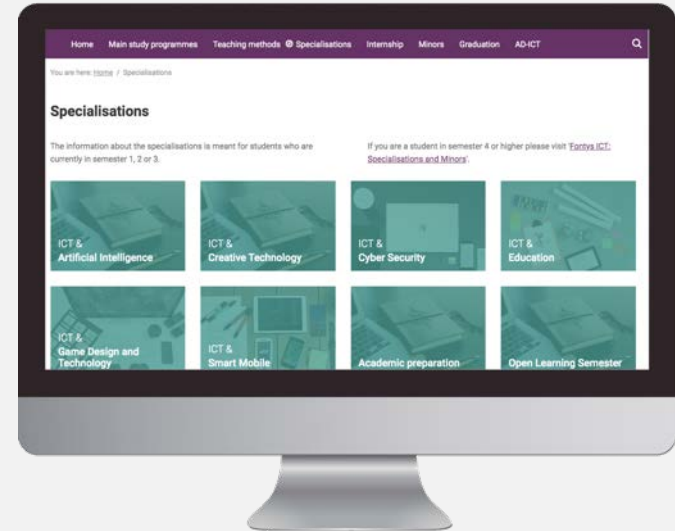

More information? [1]

Visit

www.studynavigatorfontysict.nl

Per specialisation you will find info about:

- ✓ Description of content
- ✓ Field of work
- ✓ Contact programme managers
- ✓ Video for even more inspiration!

More information? [2]

Join the online informationmarkets*:

Tuesday, April 6th, 16.00u – 17.30u

**You'll find the 'join-buttons' in the Studynavigator*
